Counselling. A note to all Part 2 and Part 3 Students:

As a graphologist it is likely that you will have to deal with people who have emotional or psychological problems. It is therefore recommended that all students spend at least a full weekend (or the equivalent) on a counselling course before taking the final exam. However, this is a recommendation and not a requirement for the Diploma.

THE BRITISH INSTITUTE OF GRAPHOLOGISTS

DIPLOMA MBIG (Dip) Member of the British Institute of Graphologists

In order to gain the diploma MBIG (Dip) from the Institute, a student must pass six exams: Part 1 A/B, Part 2 A/B, Part 3 A/B.

The requirements for each exam are outlined below. The exams are held annually and there is no time limit set between the three parts.

PART 1 BASIC PRINCIPLES of GRAPHOLOGY

Section A To be completed at home

Over a four week period the student will be asked to assess two samples of handwriting by completing a full set of B.I.G. worksheets* and producing a report of 500 - 800 words for each sample provided, under exam conditions.

Section B Three hour written paper in London**

The student will be asked to assess one sample of handwriting by completing a set of Part 1B worksheets*, under exam conditions.

* B.I.G. worksheets are available from the Education Officer or Exam Administrator, or may be downloaded from the website www.britishgraphology.org

** an alternative venue can be arranged

PART 2 PSYCHOLOGICAL THEORIES of PERSONALITY applied to graphology

Section A To be completed at home

Over a six week period the student will be asked to assess two samples of handwriting by compiling a summary of working notes, lists of interpretations and psychological notes*, together with an in-depth report of 1500 - 2000 words for each sample, under exam conditions.

Section B Three hour written paper in London**

The student will be asked to assess one sample of handwriting by compiling a summary of working notes, and answer questions on psychological theories* in relation to the sample provided, under exam conditions.

* see syllabus for psychologists specified

** see above

PART 3 APPLIED GRAPHOLOGY

Section A To be completed at home

Deferral is not guaranteed and applications will be considered on an individual basis.

3 VENUE

Part B exams are held at the hotel *Number 63*, 63 Bayswater Road, London W2 3PH (0207 723 8575) info@number63.co.uk where accommodation at a reasonable rate is available. If attendance in London is very difficult, arrangements can be made to sit these exams at an alternative venue. Please apply well in advance to the Exam Administrator for details of this concession.

4 SPECIAL NEEDS

Any candidate with special needs should make these known to the Exam Administrator well before the date of application so that arrangements can be made to accommodate these. Anyone suffering from dyslexia or other relevant disability who wishes to claim concessionary treatment will be required to supply appropriate supporting certification. Excellent exam papers may be used as 'model' papers for future students unless a request is made to the Education Officer in advance. Correspondence on any matter relating to the exams should be addressed to the Exam Administrator. The Exam Board's decision is final.

EXAM PREPARATION GUIDANCE

Whether you are experienced at sitting exams or not it is important to prepare carefully, not only technical content but also exam technique generally. With this in mind we offer the following suggestions:

General

- * Well in advance, obtain some **specimen exam papers** and work through them yourself, checking answers and, if in doubt, verifying them with your tutor as they may contain errors. See page 6.
- * Before each exam, ask your tutor to organise a **mock exam** for you under exam conditions. This is particularly important for the timed 2B exam.
- * Study the **syllabus** and read the **exam instructions** carefully before you start work.
- * Continue to be **meticulous** with all technical work. Refer to the Hilliger Guidelines if necessary and use the B.I.G. worksheets, *noting which sections are required for Part 2 exams*.
- * Do not allow the **content** to influence you as you make your interpretations. Only interpretations supported by graphological evidence are valid.
- * **Presentation** is important, so make sure that all your working notes are clear and presented in a logical order, and check spelling, grammar and formatting so that the report looks professional. **Reports** must be typed. **Working notes** may be typed or written by hand.
- * A **paper copy** of all your work should be sent by post to the Exam Administrator *in time to arrive by the date specified*. If possible, an electronic copy in .pdf format should also be sent. Overseas candidates may be allowed additional time *by arrangement* to return the paper copies.

Part 2A

- * **Psychological notes** should be *selective* and *relate to the specific sample being analysed*.
- * The examiners are looking for evidence of understanding of **psychological theories** (not just knowledge) and want to see how they may be applied in a particular case to increase insight.
- * **Working notes** should be set out in an organised way, with correlations between personality traits, psychological theories and graphological indicators clearly stated.
- * **Psychological insights** should be *integrated into the report* in a meaningful and appropriate way.

Part 2B

- * **Allocate time** for each section of the exam, allowing extra time at the end to check all your work.
- * Note the **allocation of marks** for each of the questions on psychological theories and calculate the time to be spent on each. The marks for each question will be clearly stated on the exam paper.
- * Answer the **specific questions** asked and follow instructions carefully.
- * You are advised to attempt **all** the questions required. If you are short of time, an answer in note form may be quite acceptable.
- * Ensure that you have with you all the equipment you may need. Extra paper will be provided. Drinks are allowed but not food. You may keep a small handbag with you, but not large bags.
- * **Two works of reference are permitted in this exam**. These may be in the form of books, notes, cards, files etc. (not electronic).

THE BRITISH INSTITUTE OF GRAPHOLOGISTS

CANDIDATE INSTRUCTIONS : PART 2A

Please read these notes carefully before starting work

Your Candidate Number is:

Please write your candidate number on every page of material submitted.

Do not give any other indication of your identity.

Enclosed are photocopies of two samples of writing for your analysis. Each has a reference number. Please use this to identify all work relating to each sample. The paper edge is shown if a sample is smaller than A4.

INSTRUCTIONS

- a) **Reports** - for each sample prepare an in-depth report of 1500 - 2000 words covering all aspects of personality and behaviour. The report on Sample 2A(a) should be a *third party report* whereas the one on Sample 2A(b) should be *addressed to the client personally*.
- b) Please prepare each report under these **six headings**:
- | | |
|------------------------|------------------------|
| Vitality and Wellbeing | Intellectual qualities |
| Personality | Working qualities |
| Social behaviour | Interests and Tastes |
- To conclude your report, a brief summary of the basic personality should be given.
- c) **Client relations** - when addressing a report to the client personally, the language you use should be appropriate and meaningful. Take into account his or her educational level and do not use psychological or graphological terms that the client may not understand. Consider the person's feelings and self-esteem, and be tactful when describing any qualities that might be perceived as negative.
- d) **Presentation** - reports should be typed and presented to a professional standard. Please do not spiral-bind any of your work as papers have to be copied for marking.
- e) **Working notes** – *only Sections 7 and 8* of the B.I.G. worksheets are required (Summary of working notes + Interpretations), together with working notes for each psychologist. These should be *relevant to the sample* and include a brief summary. Insights reached through exploration of psychological theories should be *integrated into the report* and show understanding of why the writer is as s/he is and behaves as s/he does.

MARKING - marks will be awarded for:

- f) Good selection of dominant (etc.) movements, interpretations and backups, with suitable degree of emphasis; appropriate allocation of characteristics to headings; comprehensiveness of cover.
- g) Clear working notes on psychological theories of Freud, Jung, Adler, Maslow and Fromm, *with appropriate selection of theories* that have particular relevance to the sample; correct psychological interpretations; clear understanding of cause and effect and how theories relate to personality and behaviour *in individual cases*; ability to integrate psychological insights into the report.
- h) Good presentation and composition, including an orderly sequence of information, correct grammar and spelling, clear unambiguous statements, and wording that is appropriate for a third party report or one addressed to the client personally [see note a) above].
- j) **Do not** include irrelevant information either in the reports or working notes. There is no need to outline psychologists' theories except in so far as to show their relevance, just give evidence for your conclusions. Do not attempt to recognise or diagnose medical symptoms or offer graphotherapy.

N.B. This exam must be completed without assistance from other people and any breach of this condition will result in dismissal from the Institute. Your Statement of Own Work is binding.

Remember to put your candidate number on every page and identify every sheet of paper but do not spiral-bind any of your work as it has to be copied for marking.

Paper copies of all reports, samples and working notes **should be returned by the date specified** to the Exam Administrator. If possible, please also email an electronic copy in .pdf format.
Overseas candidates may be allowed additional time (by arrangement) to return paper copies.

GUIDANCE NOTES for Part 2B

Exam format and marks

The 3 hour exam will be in 2 sections. You will be given one sample of writing and asked to:

- | | | |
|------------|---|----------|
| Section 1) | Make a full list of dominant, secondary and miscellaneous movements | 20 marks |
| 2) | Answer questions on psychological theories (those of Freud, Jung, Adler, Fromm or Maslow) as they apply to this sample. | 80 marks |

5 minutes will be allowed before the start of the exam to look at the sample and questions.

Questions

The number of questions will vary according to the sample, but the allocation of marks for each question, or part of a question, will be clearly stated on the exam paper.

Typically there will be 4 questions with an allocation of 20 marks for each, or 5 questions with a more varied allocation, so try to divide the time accordingly.

Depending on the sample, there may or may not be a question relating to each psychologist. Not all theories are helpful in every case, so the focus will be on those that are most relevant to the sample.

Answers

Answers may be in full sentences or set down in the form of notes, bullet points or tables at the discretion of the candidate, especially if there is not enough time for a detailed answer.

Language

Jargon should be avoided. Where technical terms are used, the examiners will be looking for evidence that a theory is understood, not just repeated.

Handwriting movements

As a general rule, handwriting movements should always be cited to support any statements made. Only handwriting movements *that appear in the given sample* will be accepted as evidence of the writer's personality traits or psychological make-up.

Always read the questions carefully for specific instructions regarding handwriting movements.

As a general rule, movements referred to in the answers should be included in the list of dominant, secondary and miscellaneous movements.

Reference material

Two works of reference will be permitted. These may be in paper form only, not electronic.

Purpose of the exam

The object of the 2B exam in this format is to test whether a candidate can, without assistance and in a short space of time:

- accurately assess handwriting movements and their relative importance
- make appropriate interpretations of handwriting movements in a specific context
- understand specified theories of personality
- understand the significance of questions in relation to a particular sample
- apply theories in a meaningful way to increase insight and understanding
- use reference material intelligently.

THE BRITISH INSTITUTE OF GRAPHOLOGISTS

PART 2B EXAMINATION 2019

All questions relate to Sample 2B 2019

Please write your candidate number on every page and number all pages

N.B. In Section 2 answer 4 QUESTIONS ONLY

SECTION 1 Worksheets Section 7 [Summary of Working notes] **20 marks**

Compile a list of Dominant, Secondary and Miscellaneous movements

SECTION 2 Questions on Psychological theories **80 marks**

Question 1 **FROMM** **20 marks**

Using Fromm's theory about the Orientations of Personality (and dominant movements as a guide) identify Tom's key personality traits, with reference to handwriting movements.

Question 2 **ADLER** **20 marks**

Any exaggeration in handwriting is a clue that the writer feels the need, consciously or unconsciously, to compensate for something lacking in himself.

Bearing this in mind, what do you think this is and how has it affected the development of his personality? Referring to Adler's theories as well as handwriting movements, what ways has he found to compensate and how successful has he been, in your opinion?

Question 3 **FREUD** **20 marks**

All children go through stages of development as they grow up, but if they encounter particular difficulties at any stage may become 'fixated' at that level, according to Freud.

Do you see any evidence of fixation in Tom's writing? With reference to handwriting movements, what personality traits would you link with this and how does he tend to behave as a result? What kind of difficulties do you think he had to cope with as a child that led to this type of behaviour as an adult?

Question 4 **MASLOW** **20 marks**

According to Maslow and his theory of the Hierarchy of Needs, our needs change as we get older, with different ones developing as some are satisfied.

Judging from Tom's writing, which need or needs have yet to be satisfied and which of his personality traits might be linked with these?

Question 5 **JUNG** **20 marks**

Jung proposed that each male personality has an unconscious female side and each female personality has an unconscious male side.

Assess Tom's writing with reference to Jung's theory of the anima/animus. In his case, how do you think the two sides of his personality are interacting and which character traits may be evident as a result? Reinforce your findings with handwriting movements.
